

**About
BROAD-SPECTRUM ULTRA FOLIAR**

An Ultra Foliar has 12 nutrients
It prevents hidden hunger and
paddock variability

Soil types change so rapidly in every paddock,
with soil-based fertilisers delivering
varied supply

Ultra Foliar sprayed onto the crop delivers
optimal levels of nutrient across every square
metre of the paddock, bypassing the soil

Grant Borgward,
Farmer and RLF Manager

Grant Borgward talks about BROAD-SPECTRUM ULTRA FOLIAR

Farmer and National Sales Manager for RLF

About this Series

An informative and insightful video series featuring Grant Borgward has been released for 2016.

It has been called FARMER TO FARMER with very good reason.

This series has been developed to enable farmers everywhere to draw knowledge and inspiration from a fellow farmer as well as to spread further the message of RLF products.

Grant Borgward talks about Broad-spectrum Ultra Foliar

Ultra Foliar has twelve nutrients.

The reason we rely on broad-spectrum technology is something called hidden hunger and paddock variability.

So, hidden hunger as the name suggests, is a nutrient deficiency that the crop has that the farmer is not aware of. This is going to cost him economically. It is normally brought about by paddock variability because as the soil types change so rapidly, the nutrient supplied to them has varied effect.

However, if we spray the crop with a product like Ultra Foliar – one that supplies the twelve nutrients – we are making sure that every square meter, (so out of the ten thousand square meters in every hectare), that every square meter has the right amount of nutrient.

We bring it up to optimal levels with the main trace elements of zinc, copper, manganese and molybdenum. And by delivering it in a phosphorus base to stimulate the plant's metabolism, it gives rapid root growth at the same time. An excellent solution.

About Grant

Grant farms nearly 10,000 ha of mid-west land located southeast of Geraldton in Western Australia. A son of a farmer, Grant's been bought-up on farm all of his life. In professional life Grant is the National Sales Manager of RLF for the last 18 years.

RLF Products

Seed Priming	Ultra Foliar	Crop-Specific Foliar
BSN Superstrike	Plasma Fusion	Canola Plus
BSN Ultra	Plasma Power	Cereal Plus
BSN-10	Broadacre Plus	Cotton Plus
	Fruits & Veggies Plus	Horticulture Plus
		Viticulture Plus
Foliar	Rapid Foliar	Nutrient Charger
Boron Plus	Rapid Zinc	Unidip
Calcium Plus	Rapid Max	
Potassium Plus		
Foliar Nitrogens	Fertigation/Furrow	
PowerN26	Fertigation Plus	AdBlue
PowerN42	Plasma Furrow Inject	Bulk Fertilisers
PowerPK	Nutricover
