*Ed, Vera, Myles and Owen Garner –
Wyalkatchem, WA*

Far more Versatile

"Adopting the RLF integrated approach; comprehensive soil analysis became a priority, with the use of lime, gypsum, magnesite, and then using BSN Superstrike nutrient seed primer to give our crops the best start possible. CSF foliars and any additional elements where required, gives us the flexibility to address cropping needs when and where required, to improve quality and yields over the whole program. This compliments makes our fertiliser program far more versatile and able to cover most scenarios, rather than relying on a stand alone granular program."

Farmers	Ed, Vera, Myles and Owen Garner
Location	Wyalkatchem
Property Size	5000ha
Farm Enterprise	Wheat, Lupins, Barley and Sheep
Annual Rainfall	300mm
Time on RLF Program	11 years
