*Ian and Rob Kitto –
Mullewa, WA*

Saves us Money

"The sandplain we farm is very productive, but leaching had always been a big issue for us with our high rates of granular fertiliser. We use the BSN Superstrike to get the crops to establish faster and to develop a larger root system sooner. Combined with a Plasma foliar spray after the nitrogen and potassium top up, the RLF program helps us to dramatically reduce leaching of our granular fertiliser, which at the end of the day saves us money!"

Farmers	Ian and Rob Kitto	Farm Enterprise	Wheat, Lupins
Location	Mullewa	Annual Rainfall	375mm
Property Size	8000ha	Time on RLF Program	4 years
