Improve the Quality and Quantity

"Our strategy is simple we want to improve the quality and quantity of the crops that we grow cost effectively. We use BSN Superstrike to give us good early vigor and to increase the uptake of our granular fertiliser. The CSF foliars supply phosphorus and trace elements at the same time that we supply extra N, that helps us keep our quality in line with our quantity."

Farmers	Murray and Vicky Dixon
Location	Narembreen
Property Size	5000ha
Farm Enterprise	Wheat, Lupins, Canola
Annual Rainfall	330mm
Time on	
RLF Program	9 years
