

## Keep the Crops on Track

"The RLF program enables us to supply trace elements over a large area of our farm at optimum times. BSN Superstrike is fast and easy to use and it promotes bigger root systems which increase the uptake of granular fertiliser.

The CSF and Plasma Foliars let us play the season and they mix well with the rest of the spray program. The products help combat the negative effect of sulphur use. The RLF products help us keep the crops on track."

Farmers	Russell and Vicky Hooper
Location	Merredin
Property Size	6000ha
Farm Enterprise	Wheat, Barley, Lupins, Sheep
Annual Rainfall	320mm
Time on RLF Program	7 years

*- Russell and Vicky Hooper  
Merredin, WA*
