Grower Testimonial

March 2007

www.rlf.com.au

Treating the Seed from day one!

"We have been treating our seed with BSN Superstrike for 3 years now to ensure our crop has enough of the essential trace elements zinc, copper, manganese and molybdenum at the start of germination. Our high pH soils tie these nutrients up, that is why we like to put them inside the seed, where we know they are available to the young seedling from day one!"

Farmers	Wags and Sonia Siemer
Location	Scadden
Property Size	5600ha
Farm Enterprise	Wheat, Barley, Sheep
Annual Rainfall	375mm
Time on RLF Program	3 years
