*Colin and Debbie Smeeton -
Trayning, WA*

Less than a Cold Beer

"When I was first introduced to the RLF program, I was a little sceptical as to how it would fit into my current program. The need to spend my fertiliser dollars on inputs that the crop needed and not throw money where nutrient levels were adequate was a major step towards a more integrated fertiliser program. The introduction of the seed primer BSN Superstrike gave crops early vigour and increased root growth. We see it as a great investment (\$/ha) for a minimal outlay (less than the cost of a cold beer!). CSF Foliars play an important role in our program, which we tailor to suit individual crop and soil types."

Farmers	Colin and Debbie Smeeton
Location	Trayning
Property Size	3500ha
Farm Enterprise	Wheat, Lupins, Barley
Annual Rainfall	300mm
Time on RLF Program	3 years
