Improved NPK uptake

Stronger plants to resist disease

Environmental conditions are handled better

Nutrient removal rates.

Based on plant

Soil variability problems are fixed as it bypasses the nutrient lock-up in the soil by delivering them through the leaf.

Safe transfer of nutrients as it significantly increases crop quality, quantity and nutritional value.

Improved quality and value

Reduced NPK costs as granular NPK use can be decreased as part of an integrated fertiliser program.

Increased yield as consistently demonstrated by independent trials in Australia.

As the uptake of NPK fertilisers is increased by improving NPK giving greater

Because it gives the plant more energy to deal with

As plant and crop safety is ensured by investing greater strength to the

As the load of 12 optimally balanced nutrients are delivered directly through

As it provides a substantial boost of

Vigorously

Shake

Mix with Water

Mix with other Chemicals

PRODUCT COMPATIBILITY + JAR TESTING

DO NOT mix with alkaline copper fungicides or inoculants.

If you are unsure, we recommend a simple jar test of products.

PRECAUTIONS

Non-toxic product. Avoid unneeded contact. Keep out of the reach of children. If contact is made with eyes, immediately rinse with plenty of water. If swallowed, seek medical attention.

ANALYSIS AND PRODUCT ASSURANCE

MACRO NUTRIENT

Zinc (Zn)
Manganese (Mn)
Copper (Cu)
Iron (Fe)
Boron (B)
Cobalt (Co)
Molybdenum (Mo)

MICRO NUTRIENT

Nitrogen (N)
Phosphorus (P)
Potassium (K)
Magnesium (Mg)
Sulphur (S)

RLF

Australian-owned Formulator, Manufacturer and Supplier of High-analysis Broad-spectrum Liquid Fertiliser technologies. For over 23 years RLF’s products have been used by millions of farmers and growers world-wide. ISO 9001 Quality Assured Company since 1998.
