

THE POWER AND PROOF OF RLF PASTURE PLUS Phenomenal Results showing Quantity and Quality Pasture

by Greg Kaynes, Area Sales Manager (NNSW/SQLD)

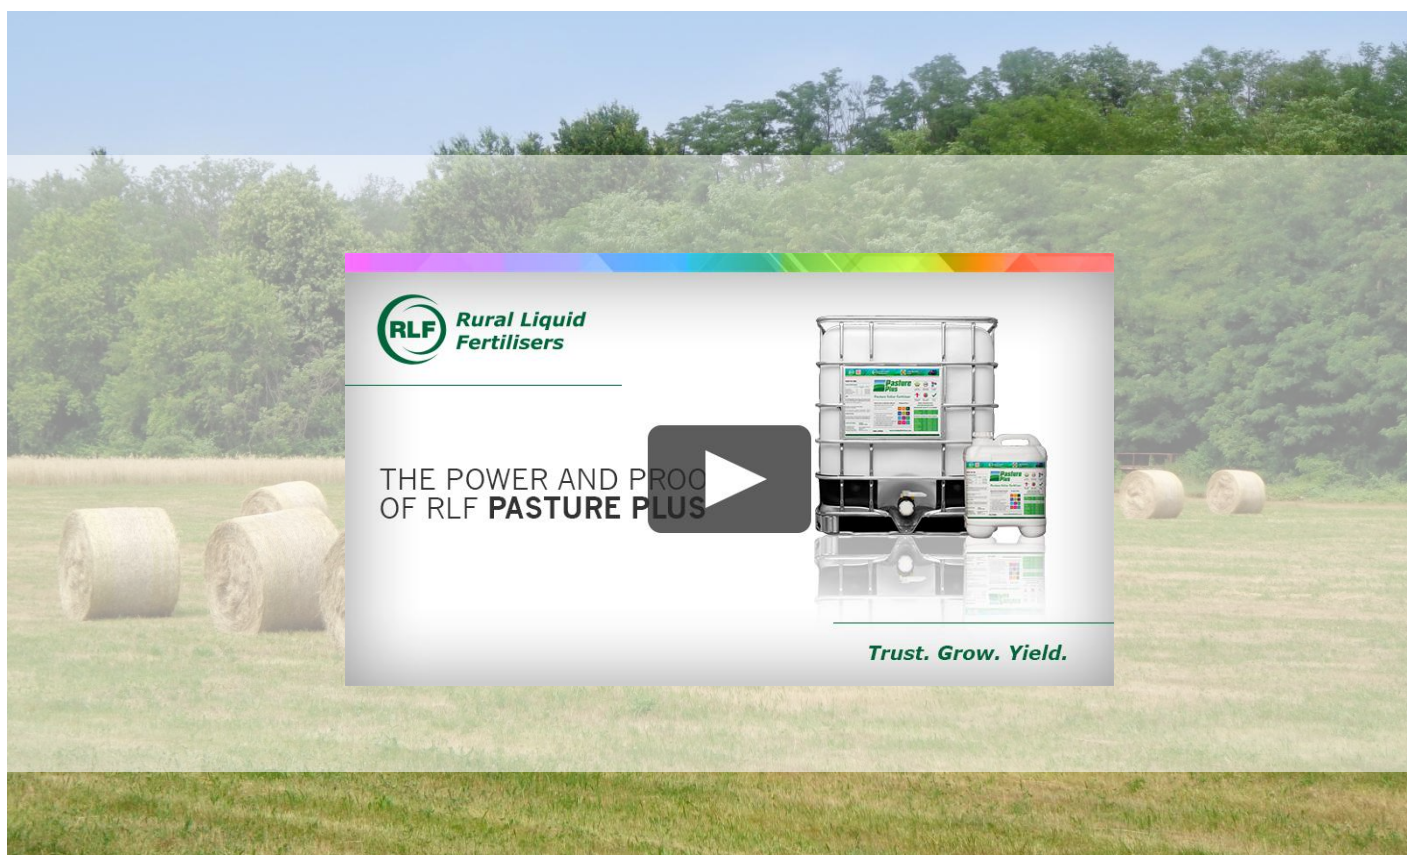

RLF's specialised Ultra Foliar Product **Pasture Plus** is once again showing just how beneficial it is for the business operations of cattle graziers. Quality pasture is crucial for healthy and productive animals and **Pasture Plus** has exceeded all expectations with the latest phenomenal results.

Cattle grazer Mr Daniel Maloney of The Glen in Hernani (New South Wales) recently participated in an Evaluation Trial of **Pasture Plus**.

Pasture was sewn during the second week in March 2015, in two specifically identified locations on his property of 2,000 acres. On the 28th May 2015, 3-litres **Pasture Plus** per hectare was sprayed onto the two plots. The soil type was classified as Clay Loam and the region records an average annual rainfall of 52 inches (1,320mm).

You are invited to view the vision of the crop comparisons in full, by clicking [here](#).

The statistical data relating to these Trials is as follows :

Measurements and Crop Information

Date Measured	Plot 1 Silage Pit (Treated)	Plot 1 Silage Pit (Control)	Plot 2 Lower Eastern (Treated)	Plot 2 Lower Eastern (Control)
	Pasture Plus (3lt) NPK granular as base fertiliser plus Chook Manure, Compost and Microbes Crop Type : Oats	NPK granular as base fertiliser plus Chook Manure, Compost and Microbes Crop Type : Oats	Pasture Plus (3lt) NPK granular as base fertiliser plus Organic Starter Crop Type : Fescue, Plantane, Red Clover	NPK granular as base fertiliser plus Organic Starter Crop Type : Fescue, Plantane, Red Clover
27/05/15	2950	3076	3118	2852
15/06/15	4182	3342	4630	3538

Daily Growth Rate, per hectare

Days Measured	Plot 1 Silage Pit (Treated)	Plot 1 Silage Pit (Control)	Plot 2 Lower Eastern (Treated)	Plot 2 Lower Eastern (Control)
19 days	64.84	14.00	79.58	36.11

NOTE : these Measurements will continue to be taken over the coming two months.

The results on paper certainly look good enough at this very early stage of the Evaluation Trial.

But just wait until the vision of the pasture crop is viewed – it is truly amazing.

Here is a small glimpse of what unfolds as you watch the video.
